

## SERASANA DRIPPING SPRINGS

### Safety Protocols at Dripping Springs

#### **For massage, acupuncture, and other 50-80 minute treatments:**

1. When you arrive in the parking lot, call us at **512-766-4000**.  
We'll mark your arrival and ask wellness screening questions.
2. When your therapist is ready to escort you to your room, we'll give you a ring.
3. Remember to wear your face covering and sanitize or wash your hands immediately upon entering the building.
4. Enjoy your service!
5. Sanitize or wash your hands again after your service. We aren't handling cash at this time but can utilize your credit card on file for tips and such. :)

### What Else?

- **Therapists will be working modified shifts to follow occupancy considerations.**
- **Curbside service remains available for product purchases. Order online or email us.**

### Additional Safety Protocols

- An extra 10 minutes between appointments to allow ample time for sanitization after each session. Hence, the funny appointment times, like 1:10 or 2:40. ;)
- Reduced number of clients and staff in the building simultaneously.
- Plexiglass barriers at both workstations.
- No cash payments or cash handling at all.
- Removal of unessential linens and bedding.
- Disposable to-go cups and disposable hand towels only.
- Even more frequent sanitization of bathrooms, door handles, and counter tops.
- Wellness screening of employees before each shift.
- Face coverings worn by employees.
- Hand washing or sanitization immediately upon staff's entry into the building and even more frequently throughout the day. Therapists already wash and sanitize their hands between clients, which will continue like normal.
